Commoning Marginalized Ecological Memories for Open Sustainability

OCTOBER 2025

2ND NEWSLETTER

## ABOUT CO-MEMO-S

The goal of the Co-Memo-S project is to develop a comprehensive training program for youth workers, which encourages them to bring young and old people together around the theme of sustainability, by means of uncovering and sharing local socio-ecological memories and knowledge.

This training program has four independent but connected elements:

The first element is **a Handbook**: It is a seed bank. It offers state of the arts, ideas, stories, and tools that the youth workers can use in their own way.

The second element is **educational videos**: these videos are about five current ecological crises, namely: air pollution, water pollution, climate change, ecosystem exploitation and greenhouse gases emission.

The third element is **an E-learning Platform**: It is an innovative, accessible platform for youth workers to access and utilize the project resources.

The fourth element is **a Virtual Archive**: It is available through the Co-Memo-S platform. It includes so many local socio-ecological memories in order to promote the shared understanding and action.

## BIG MILESTONES

The draft English versions of the project results are ready and tested by the project partners during the learning, teaching, training event organised by SCAS in Bulgaria.

This event provided us with a once-in-a-(project)-lifetime opportunity to try out all developed materials together.

We can't wait to improve our products, and then translate them into national languages.

"A learning experience that one does not come across very often!"

## NEXT ACTIVITIES IN THE THIRD SEMESTER

After the learning, teaching, training event we are working on the finalisation of the English versions of the project results.

Then these results will be translated into national languages.

Last but not least, these national versions will be tested by end users.

All materials will be available on our website.

Stay up to date and don't miss out on the latest news from Co-Memo-S!
